ROBIN RIENDEAU – LEAD VOCAL and acoustic guitar.

Robin and his love story with music... He is highly creative and very kindful with his friends and the crowd. Check his high positive energy onstage and you'll be entertained for two hours of pure power. **You will see what is a huge rock concert - He's a real frontman!**

Always renewing his stage presence and his live vocal performance, he knows how to transmit the feelings of a Bon Jovi's song. See him live!

YVAN "THE Y" LECLERC - GUITAR & back vocals.

It's amazing to see how this guy knows how to share his instrument with the crowd. More than this, he knows how to perform Bon Jovi's songs just like Richie Sambora. Teaching guitar, he's always smiling and a great friend to have.

Having a lot of musical background and big affinities on stage with each band members, **it's now up to you to meet this great guitar player!**

KARL-YVES HOVINGTON - BASS & back vocals.

Most bass players are shy on stage but not Karl-Yves. He's real dynamite and that's a must for the energy of a rock show. Not so many people know about the bass but his way to play those low frequencies reach us to the core.

He'd also rocked other countries like Finland & England. He appears even more like a "lead" in the songs **"Keep The Faith"** and **"Living On A Prayer"**, bringing to life those melodic bass lines. Imagine the entire show! **He's always have fun with the crowd, just meet him, you'll see by yourself!**

MICHEL FRANCOEUR – KEYBOARDS & back vocals.

Mike is very talented. Playing many kind of instruments, he is also a musical director in his own studio, working with well known Canadian artists as Star Academy. Able to play different music styles, is what we call an accomplished rocker.

He brings a lot of fun on tour and working really well in concert. He's a must-to-see in Runaway!

JEAN-PATRICE LEROUX - DRUMS.

He's always having such a great time on stage, always smiling and having so much fun... who could ask for more. He drums with so much emotions that we can feel the vibrations getting harder and harder as the show goes by.

Someone said someday "You Gotta Feel the Rythm", well it's J-P!!

I watched the crowd throughout the evening, and everyone was **into the music just as much as at a Bon Jovi concert!** Now that's impressive! The quality of the music & voice were excellent.

They satisfied all tastes with a setlist filled with both old and new. All the hits were in there and some unexpected tracks which havent been heard for a while! They interacted well with the crowd which made it even more fun and the audience appeared to love every minute. So, if the opportunity arises and they are playing in a venue near you, I recommend you go along and see them! You won't be disappointed!
